

MOHANDEEP

GROUP OF COMPANIES

We are one of the
leading manufacturers & suppliers of
**QUALITY FASTENERS, &
HARDWARES** in India.

OUR FASTENER BRANDS

DIRECTOR MESSAGE

As a comprehensive manufacturer of fasteners, Mohandeeep Group has been supplying a wide variety of products to our customers in various sectors like Auto, Motor, Engine, Cycle, other mechanical & Construction Allied Industries. Since early in our company history, we have established a unified all-in-one in-house production facility where we perform everything from raw material to finished goods. As such, we have been able to speedily provide products that meet the expectations and requests of the customer by the company working as a whole. However, I believe the most important asset that Mohandeeep Group has, is the relationship of trust that we have established for over more than 52 years with our customers. Our manufacturing skills and strict process control for producing quality fasteners makes us more prominent manufacturer.

In order to succeed, your desire for success should be greater than your fear of failure

MOHANDEEP GROUP OF COMPANIES

Company Brief

Mohandeeep Industrial Corp. was Founded by S. Darshan Singh Masoun in the year of 1970 with a mission of providing high quality Fastener Products serving in various sectors like Auto, Motor, Engine, Cycle, other mechanical & Construction Allied Industries. We are dedicated to deliver high quality products and services, which satisfy the needs and requirements of customers by Continually improving our Quality Management System. All raw material & products are thoroughly inspected for their confirmity to the standard requirements with all computer facilities. All tests are done as required to ensure the different stages of work in process after satisfying the requirement of relevent standards.

Based in Ludhiana, India, Mohandeeep Group is an established industrial fastener plant that manufactures, supplies, and exports high-quality industrial fasteners. We started our industrial fastener production journey 52+ years ago. As industry leaders in manufacturing industrial fasteners, we have the experience needed to create high-quality products in India and across the globe.

Why Choose Us

As quality being the hallmark of our organization, we have selected an expert team of quality inspectors, which conducts rigorous tests on our offered product range based on specific parameters.

Best Quality Fasteners

The phenomenal success of the company is undoubtedly due to the high quality standards followed by the company.

Customer Satisfaction

Over the years, we have flourished & excelled in our business because of complete client satisfaction through unmatched efficient services.

On Time Delivery

On time delivery is a measure of process and supply chain efficiency which measures the amount of finish goods or services delivered to customers on time and in full.

Automotive Fasteners

Quality Policy

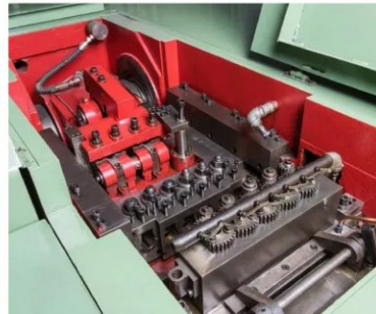

We are a quality conscious company, innovating new production techniques to continually enhance efficiency to offer quality products. Our aim is to deliver an unparalleled level of quality with one thing in mind - your complete satisfaction. We use state of the art machinery and testing equipment to engineer quality products that meet or exceed specification and work with a quality system that ensures that every product shipped is defect free. Each and every product is tested and attached with proper documents before delivering them to our clients.

Our R&D department mainly ensures the quality of the product which is a very important factor when producing fasteners, scaffolding no matter if it is relating to the Automotive, Industrial, Fencing, or Nautical industries. Quality is of vital importance. Our Quality Assurance Department was set up by way of preventing mistakes or defeats in our own manufacturing process, and also to provide effective solutions if problems were to arise. MOHANDEEP GROUP OF COMPANIES adopts the working practices "Fit for purpose", which signifies our components are suitable for the intended purpose and have been approved by our customers, and "Right first time", which means mistakes must be eliminated so only high-quality components are manufactured from the onset of production.

"We Have A Very Close Working Relationship With Our Customers, Aiming To Understand Their Every Requirement, And Ensure The Components That Are Designed And Manufactured Are To Their Exact Specification."

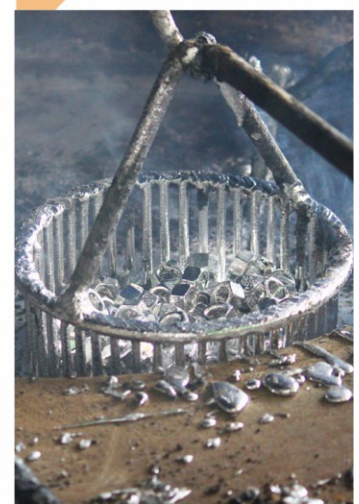

Our Infrastructure

We have constructed a well-developed infrastructure that is equipped with all the state-of-art machines and equipment. Our infrastructure is segregated into various departments like advanced production facility, testing laboratory, Research and Development unit and a spacious warehouse, which enables us to manufacture a high-grade range of these products. We have equipped our manufacturing unit with the latest machines, testing laboratory and R & D unit improved contemporary machinery, robust construction and these machines are operated by our most efficient and skilled professionals. We have a modern infrastructure set up. And, our unit is well connected with shipment modes that enable us to timely delivery of our heavy-duty products at the customer's end.
